

*Introduction to a lecture given by Chan  
trance guide of Ivy Northage*

*Transcript from the recording in October 1996  
of the 'Chan' Lecture starting with  
acknowledgment of the passing and reception  
of Ursula Roberts into the spirit world*

Good evening friends. Welcome to the SAGB unto tonight's October 96 Chan lecture. Before we start tonight's lecture however, it is my said duty to tell you about the passing unto spirit on Saturday of Mrs Ursula Roberts, the chanel for her spirit guide Ramadahn. Ursula, just like Chan's medium Mrs Ivy Northage here, has dedicated her whole life to the partnership with her spirit guide, in order to enlighten us and all those who listen to Ramadahn, to grow in understanding of the higher truth.

Ursula was a wonderful person and a dedicated worker for spirit. She served the SAGB for many years as well as churches and organizations throughout the country and abroad. She was a fellow of the, 'National Federation of Spiritual Healers,' and helped many people. She was widely known through her work as Ramadahn. She was also greatly loved as a beautiful person. I valued her

friendship tremendously and have like so many people learnt so much from Ramadahn's teachings, and I felt privileged to chair for her on occasions.

Chan and Ramadahn belong to a group of teachers from the higher dimensions whose teachings are from a very high order indeed. As a mark of our love for Ursula's life could I ask you to physically stand up if you're able to do so and observe a minute's silence, as a tribute to Ursula please. Thank you...

Chan and Mrs Northage had been together for sixty-odd-years and Ivy has dedicated her life in partnership with Chan to help us all from a higher realm.

Ivy is a trance medium-----

Tonight's talk is entitled, 'Is mediumship and healing the only thing of spiritual service?'

----- You have the opportunity to ask Chan afterwards. Now very quietly---

Chan is now ready to communicate through Mrs Ivy Northage.

*"Ladies and Gentlemen and friends, before I commence my own lecture and discourse with you this evening. I would like you to know that your colleague and friend, Ursula, has received a glorious home coming. She has been*

*surrounded by love, by light, by appreciative minds and spirits, totally unknown to her whom she has been a means assisting on their pathway. So do not in anyway feel grief or loss because her manifestation of auric love has remained behind her and will be a memorial to her, as long as those her remember and can appreciate all she can offer, can so do rejoice with her then, know that all her pain and suffering is behind her, and she goes now to receive that glorious reward that her dedicated life has so afforded her in every particular in every respect.”*
